The speakers contended that" it was only just and proper that congress should be petitioned to grant pensions to the survivors, their heirs and successors in that glorious Captain James Bachman, after assur-

That old and reliable paper, the Houston Telegraph, which rarely condescends to notice individual enterprises, says of the First Drawing: "Not even the most captions and suspecting person could take exceptions to the manner of the drawing. It was fair, honorable and eqitable. The committee and recorders were of our very best citizens, and kindly gave their time and labor to the superintendence of the drawing, or rather did the actual choor of it. Captain Foster has acted honorably and fairly throughout the whole management of this enterprise. While some money has been made by the venture in all probability, yet the property given as prizes has only nested a fair price, and the profit is only an exchange of the property for cash."

That staunch Democratic paper, the Houston Age has the following:

"The Committee of gentlemen was one of the best that could have been selected by the audience. Hon. D. U. Barziza, who supervised the drawing, is our present representative, and one of the most popular men in the disthe drawing, is our present representa and one of the most popular men in the and one of the most popular least in the drawing was prefaced by a planation from Captain Foster, of the adopted. Captain Foster said that while he wished all nishome people of old inck he yet was free to say that with the people of poor Missis-ippl, Lonisiana and South Carolina, he felt a greater sympathy, and he did hope they would draw the largest number of prizes, that they might come to a free country, and make a white man's living. This sentiment was received with loud cheers. The drawing was then proceeded with, and the result is announced elsewhere."
